

EU-ACME welcomes two new members: Portuguese and Egyptian Urological Associations

Associação
Portuguesa
de Urologia

With great pleasure the European Urology - Accredited Continuing Medical Education (EU-ACME) programme welcomes its new members, the Portuguese Association of Urology and the Egyptian Urological Association. Participation in the EU-ACME programme provides the urologists with a system to help them to keep track of their educational activities, irrespective of the country they practice in or where they have participated in CME and/or CPD activities. It is based on the EBU/UEMS rules.
